

Projector Motorized Lift

Product Feature:

Bo Ente projector motorized lift adopts the asynchronous motor with slowdown & electromagnetic brake, and cross scissor shaped design with electronic position-fixing. It possesses the characteristics including attractive appearance, smooth & quiet moving, locating with precision, comprehensive functions, convenient installation, simple operation & high capacity. It is widely used for home theatre, projector engineering, TV & video conferencing systems, large-conferencing system ect.

Function:

- Orientation Nicety: Tolerance of orientation is limited with 1mm
- Low Noise: Noise within 50 decibels.
- Central Controlled Panel: it's easy to be controlled and connected the machines by central control.
- Exterior Design: Unique & attractive appearance.

Accessories:

- Bottom Panel Included
- Projector Fixture Included
- Four Extension Plates Included
- Big Switch Included
- RF Remote Control Included

Detail Parameter:

Item Model	BML-100	BML-150
Material	Steel+ motor	steel+ motor
Sissor Strip	fabric strip	fabric strip
Size	37*35*19cm	37*35*23cm
Thickness	21cm	23cm
Mini hight requirement for Ceiling	390mm	400mm
Traveling Distance	1.0 meter	1.5 meter
Motherboard size	500*500mm	500*500mm
Decoration hole size	470*470mm	470*470mm
Loading capacity	8kg	8kg
Max size requirement for projector	35*360*180mm	350*360*200mm
Net weight	20kg	22kg
Power	10W	10W
Voltage	110V,220V,240V	110V,220V,240V
